

PRINCIPIA HAND · SHEET 2

One character per box, in the same black marker as before. Make capitals reach the dotted line; lowercase sits on the baseline, with tails going below it. Keep well inside each box. Leave a box empty to skip it. Pencil is fine for guides. Photograph flat, square-on, in daylight, without glare. No need for subscripts or superscripts (z_0 , 10^{-9}): those are made from your digits. Print at 100%.
